

INTERNATIONAL COASTAL CLEANUP™ SUMMARY CARD

Dear Zone/Site Captain:

Thank you for your hard work, dedication, and valuable time spent for this important cause! We appreciate your commitment and passion for ocean and waterway conservation issues.

Please take a few minutes to fill out this **Summary Card**. The Ocean Conservancy processes ICC data compiled by hundreds of thousands of volunteers from over 90 countries. In order to speed up the process of entering all the data necessary to generate final reports and to ensure your state and country is accurately represented in the analysis of the ICC results, it is extremely imperative that you fill out this form and mail it back to your State/Country coordinator within two weeks after your Cleanup.

This Summary Card is to be completed ONLY by the ICC Zone/Site Captain. Before filling out this form, compile all the data from the data cards you received from the cleanup volunteers. For each item on the data card, add the total number of pieces, and enter this number in the box. **Example: if your volunteers removed a total of 122 Beverage Cans, then you would write 122 in the box next to Beverage Cans.**
